Cases and support

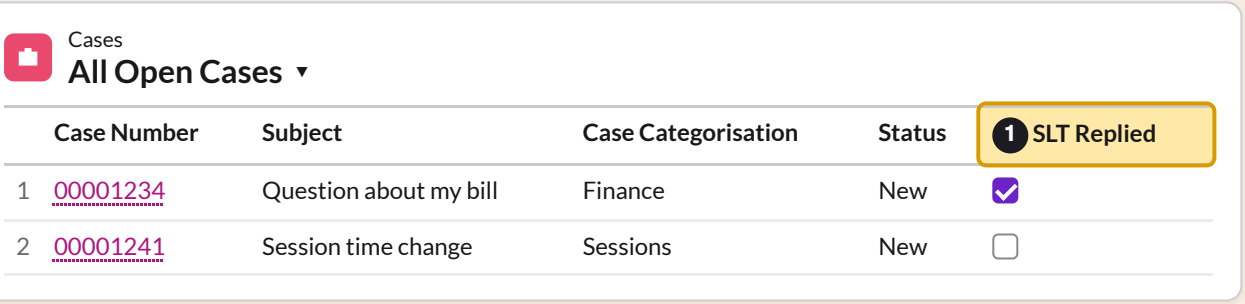

LIVE NOW

New **See when the MindJam team has replied** Cases · 11/11/2026

Your cases now show an **SLT Replied** tick. It tells you when the MindJam team has answered.

- The team replies on your case: **the box is ticked**.
- You reply: **the tick clears**. It comes back the next time the team replies.
- You still get an **email** when the team replies, just as before.
- It only counts replies from **11/11/2026** onwards. Older replies do not tick the box.

Where	Support › My Cases, in the **SLT Replied** column. Also on each case page. Open Support
What to do	Nothing. The tick updates by itself.

1 **SLT Replied.** Ticked: the team has replied since your last reply. Empty: no new reply from the team since then (counting from 11/11/2026).

2. **Priority Guidance** has its own box, with High, Medium and Low in colour.
3. The **Text Help** link sits at the bottom of that box.

Bills

LIVE NOW

Improved Bill pages are simpler

Bills · 06/11 to 10/11/2026

Each bill page now shows the month it is for, and two things have been taken off.

1 Improved **Invoice Month on every bill** 10/11

The bill shows which month it is for, for example "November 2026 invoice".

2 Removed **Printable View button** 10/11

It printed the full page, including mentee names, so it has gone.

Removed **System availability video** 06/11

The video no longer sits at the top of bill pages.

- The button tells you which month it is for.
- **A reminder may pop up first.** It appears if you have sessions from **this month** that have happened but are not wrapped up. Click a session to open it and wrap it up. Older bills skip this check.
